

2016 STREET IMPROVEMENT PROGRAM

Lloydminster streets are evaluated annually for needed repairs and upgrades. Annual maintenance and upgrading is an important part of improving the safety and extending the life of the City's roadways. The 2016 Street Improvement Program consists of work at 20 locations throughout the City and includes sidewalk repairs, curb and gutter repairs, walking path upgrades, intersection rehabilitations, roadway patching and addition of turning lanes. Seasonal work for the 2016 SIP is expected to conclude mid October 2016.
